

The City's Information Technology (IT) Department provides strategic planning and support for a wide variety of computer, information, and communication technologies used throughout the City. Information Services Division's mission is to lead and support information systems and technologies that enable City departments to accomplish their respective missions and to provide department personnel with information relative to their operations, support strategic planning, and promote effective resource management. To that end, the development of City information systems infrastructure will enhance the ability of our officials and employees to provide the highest level of service to the citizens of Covina and business community.
