

Permits from the Environmental Services Section are required for the following activities in the City of Covina:

Refuse Roll-Off Bins - All refuse roll-off bins must be obtained from the City's exclusive franchise refuse hauler, [Athens Services](#) . Roll-offs placed on the property of the resident or business that has contracted for the bin do not require a permit. However, in order to place a roll-off bin in the public right-of-way, an [encroachment permit](#) must be obtained from the [Engineering Section](#)

Pool Draining Permit - Prior to draining your pool, please fill out and submit this [Pool Draining Permit Application](#) to the Environmental Services Section. No fee is required, but fines may be assessed if your pool is drained without obtaining a permit. Please click [here](#) to view the City of Covina's stormwater pollution prevention guide for swimming pools.

Non-Domestic Wastewater (Industrial Waste) Disposal Permit - Restaurants, industrial facilities and certain commercial facilities that discharge industrial/commercial or non-domestic wastewater to the City's sewer collection system are required to obtain a Non-Domestic Wastewater (Industrial Waste) Disposal Permit. Non-domestic wastewater is generated from food processing, manufacturing, commercial or other operations including household type operations performed at commercial establishments or to support commercial purposes. The first step toward obtaining a permit is turning in the [Non-Domestic Wastewater \(Industrial Waste\) Permit Application](#)

State General Construction Permit - Construction sites 1 acre or greater are required to obtain a General Permit for Discharges of Storm Water Associated with Construction Activity from the State Water Resources Control Board (see [Construction General Permit Order 2009-0009-DWQ](#) [Cons](#) for details) . A Stormwater Pollution Prevention Plan and the Waste Discharge Identification

Number (WDID) that is provided to the applicant by the State must be submitted to the Environmental Services Section for review and approval before any grading or building permit is issued for construction sites 1 acre or greater.
